### ABOUT THE SEMINAR:

## Prevention of Corruption, Code of Conduct in Delivering Non-Destructive Testing Services ( An Awareness Talk)

### ABSTRACT

Non-Destructive Testing is critical today in Engineering and plays a vital role in quality control of construction, Marine, Oil & Gas, Aerospace Industries. Irrespective whether we commute to work or travel by air to reach a tourist destination, Non-Destructive Testing ensures safety of life. Our transmission pipe lines, bulk liquid / gas storage terminals, our building sites, our MRT are all inspected using Non-Destructive Testing.

We as inspection personnel shall abide by a code of ethics to conduct the test & inspection to provide true, consistent & reliable results. If any of those results are altered or willfully cheated, this leads to corrupt practices. Our speaker will provide you the insight of such practices and explain the regulations & law to avoid and prevent such practices. All practitioners, Quality personnel (QA/QC Inspectors), managers, NDT lab owners are encouraged to attend this technical talk.

RSVP: S.K Babu – 9111 0635 or P. Pugalendhi – 9105 2231

Admission: FREE if reservation is confirmed in advance before 5th September 2017.

In order to prevent wastage, we kindly urge you to confirm your seat in advance.

### About the speaker:

#### Mr. Wilson Khoo

Mr. Wilson Khoo is a Chief Special Investigator of the Corrupt Practices Investigation Bureau (CPIB), Prime Minister's Office. He has served in both the Special Investigation Branch which specializes in investigating public sector corruption cases as well as the General Investigation Branch which looks into bribery cases in the private sector.

In addition to being an Investigation Officer, Mr Wilson Khoo is a member of CPIB's Public Education Group which focuses on sharing experiences in corruption prevention with both the public and private sector. Mr Wilson Khoo also handles foreign delegations and oversees CPIB's engagements at international fora.
