**Link** : <https://ndtss.org.sg/events/> - For Member

The link to join the webinar would be provided closer to the event date.

Registration Deadline : 25 Aug 2020.

Don't miss the opportunity. Register early. Any doubt, email to [pugal@ndtss.org.sg](mailto:pugal@ndtss.org.sg) or [membership@ndtss.org.sg](mailto:membership@ndtss.org.sg)

#### **ABSTRACT**

Different industries can benefit from various innovative solutions developed for aerospace. Testia, an Airbus company will guide the audience to know what those solutions are and how these technologies can be adapted to other industries. Solutions from Testia for digital continuity, composite inspection, Structural Health Monitoring (SHM) and smart augmented reality would be described. With the participation of relevant players in Testias' innovation process, the audience will know first-hand about practical examples & use-cases to acquire insights on how the Testias' Aerospace experience can benefit world-wide industrial players. The following are some of the questions that would be answered,

- What are the solutions and their direct benefits?
- How can these solutions be adapted to diverse industries (described using use-cases)?
- What are the benefits and support provided by Testia to roll out a solution?

#### **About the speaker:**

Maxime Bellocq is technical sales manager with a mechanical engineering background, running the commercial development activity for Testia in Asia Pacific, Singapore. During this Technical Seminar, he will guide the audience through Testia's various innovative solutions by interviewing Testia's specialists and products owners.

**Thanking you, For & Behalf of NDTSS**

**P. Pugalendhi (Pugal),  
Honorary Secretary.**
